

Workshop

Virtual Development in Passive Safety and Human Models for Future Mobility

Thursday, September 26, 2024

What?

The Technische Hochschule Ingolstadt and University of West Bohemia in Pilsen invite you to the fifth joined workshop on Virtual Development in Passive Safety and Human Models for Future Mobility.

The event features keynotes, presentations, and panel discussions focussing on the key aspects of vehicle safety:

- Numerical Modelling
- Virtual Development
- Passive Safety
- Accident Research
- Human Body Models
- Cross Disciplinary Research

When & Where?

Join us on September 26th on-site in Ingolstadt or via Stream.

How can I participate?

Researchers are invited to participate; with or without 20 minutes long presentation.

Registration: events.thi.de/bthaworkshop2024

Contact: btha-workshop@thi.de

Website: vd-safe.tech

Is there any traveling support?

Presenters and a limited number of participants from the Czech Republic or Bavaria can get traveling support. For more information, don't hesitate to contact the organizers. Please request the support in the registration form. We will take you through the formal process.
